

## Borrowing a device? Use the website:

<https://skethz.github.io/eecis-device-rental/>

## Rental rules

- **Initial request:** To rent a device from our group, a user from another group must request approval from our lab manager (currently Seungki Hong, hongse@ethz.ch). The request must specify the rental period and give your name and the names of your own lab manager and professor.
- **Extensions:** If you wish to extend the rental period, submit another request to our lab manager (via *My rentals* on the website).
- **Returns:** When returning the device, notify our lab manager by marking it returned in *My rentals*.
- **Overdue warnings:** If the rental period expires and no return is recorded, a warning email is sent automatically to you, your lab manager and professor, and our lab manager — every day until the return is recorded.
- **New devices:** Group members who purchase a device can propose it on the *Devices* page; it appears in the list once our lab manager approves it.

## How to sign in

Open the website, enter your @ethz.ch address and press “Send code”. An 8-digit code is emailed to you (sender “EECIS Rental” — check your Junk folder the first time and mark the sender as safe). Type the code to sign in; no password is needed.

**Questions:** Seungki Hong (hongse@ethz.ch), lab manager
